

Office 365 Migration

On June 14th, 2019, the Anoka-Ramsey CC migrated our college O365 system to the Minnesota State O365 system.

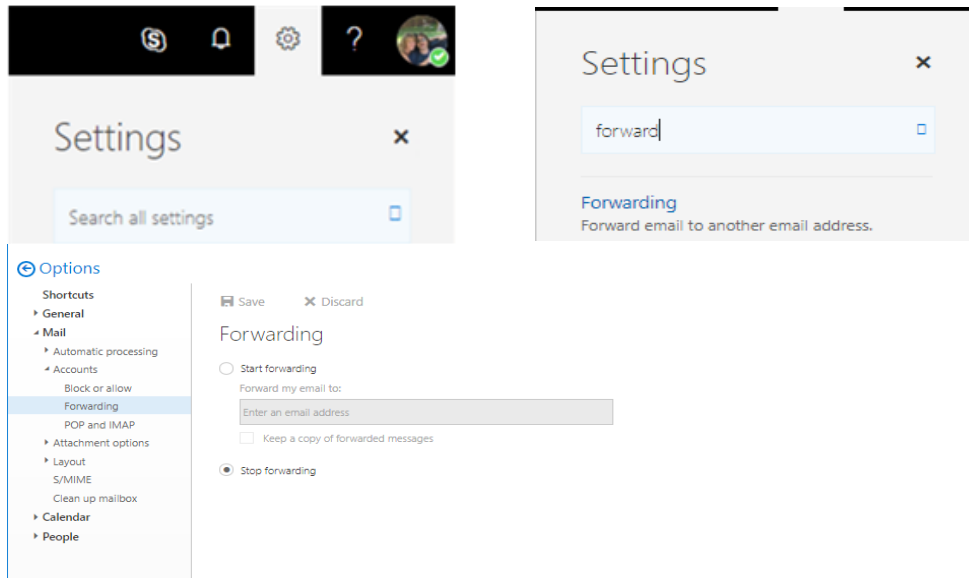

Impact to you, the Student:

- You will have a new sign-on account <StarID>@go.minnstate.edu to access the Minnesota State O365 applications and resources.
 - Password will be your current StarID password
- Your existing College email address remained the same, however you also received a secondary email address based on the new MinnState rules.
 - Secondary email address = *Firstname.Lastname.<#>@my.anokaramsey.edu*
 - Both email addresses will be linked to your <StarID>@go.minnstate.edu account
- Your new O365 account will have each MinnState college email address associated to your StarID linked to the account. However, one of the available addresses will be set as the “default” and will be used as the “Sender” or “From” address for all emails sent from the account.
- You can change your default email address via the StarID Self-Service site: <https://starid.minnstate.edu/>
 - Select “Sign in to Profile”
 - Click on the “Office 365 Contact” tab
 - Select desired address from available list
- Email Forwarding will need to be set back up after the migration
 - See page #2 for instructions
- Office 365 Installs on personal computers/devices
 - Current installs: You will need to login using your new <StarID>@go.minnstate.edu account to sync the licensing to the MinnState O365 system.
 - New Installs: Will be available thru your <StarID>@go.minnstate.edu
 - 5 Licenses per Student
 - Will expire approximately 2 years after the end of the last semester attended
 - See page #3 for instructions

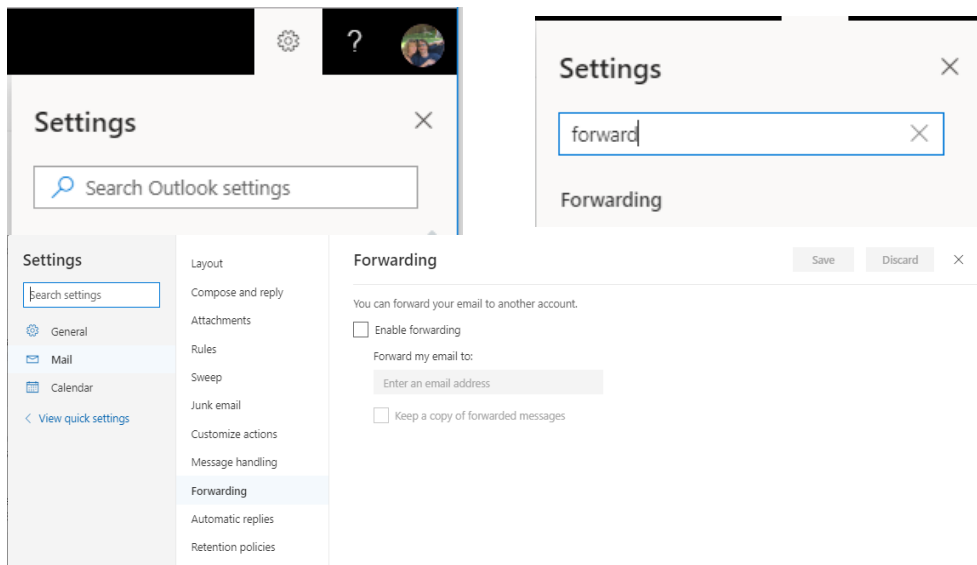

For additional information on the O365 Migration, check out <https://arcctechnews.com/> and visit the [FAQ](#) page.

O365 Mail Forwarding:

- 1) Login to the O365 Web Client
